### **Notes on 2021 & Emerging Situations:**

Please remember: the past year has been hugely challenging. Remember to be kind to yourself! If you would like to contact us to talk through any challenges in the creation of your piece, please reach out.

Also, due to the pandemic, it may not be possible to gather your youth dance group together to film. Therefore, if you have previously filmed a piece and it wasn't created with this theme in mind but you would still be interested in submitting it, please do get in touch and we can talk through options.
